

# Snowshoeing with Panoramic Views, Wildlife Tracking and Outdoor Fondue

**4 hours / 9 km / ↑ 480 m / ↓ 480 m**

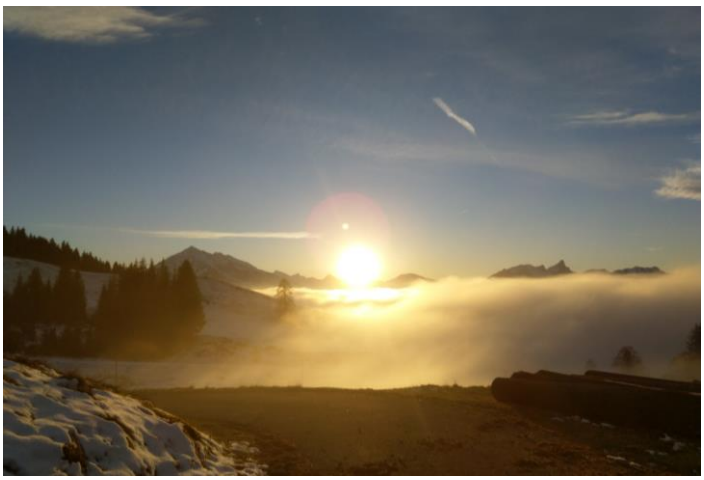

The region around Schwanden delights visitors with its beautiful winter scenery and sweeping views across Lake Thun towards the mountains of the Bernese Oberland. We enjoy the tranquillity of snow-covered forests and open meadows, as well as the stunning panorama featuring the distinctive peaks of the Niesen and Stockhorn. Along the way, you'll learn the correct snowshoeing techniques, discover animal tracks and learn fascinating facts about wildlife and how animals adapt to winter. Together, we'll take a closer look at the layers of snow and discuss how to enjoy nature responsibly while respecting wildlife.

To round off the day, we'll enjoy a delicious traditional Swiss cheese fondue outdoors. If the weather doesn't cooperate, we'll end the day with a cosy raclette at the Landgasthof Rothorn. You'll also receive the brochure "Wildlife-Friendly Ways to Enjoy Nature", helping you identify animal tracks on your own and discover the winter landscape from a new perspective.

**Details about the snowshoe tour:**

- **Dates:** 19. December 2026, 30. January, 27. February and 6. March 2027 or every Wednesday (on request)
